Dear Parent/Carer

May I begin by saying a heartfelt thank you for supporting staff and learners to ensure that we are all safe and well whilst in school and conducting LFTs. The positive response from parents and carers has been overwhelming and we quite simply could not work through these challenging times without your support.

It is about caring for each other and ensuring we are all doing everything we can to keep each other safe as well as our families and the wider community.

As a school we very much focus on the wellbeing of our school community and when we reach out for requests of support it is extremely humbling to have such an influx of messages of thanks, and requests to support staff and the school, from parents and carers. It genuinely feels comforting to know that we all understand the importance of keeping ourselves safe and in turn this will keep our communities safe.

Please continue to follow the Government guidelines and ensure to book vaccinations using the NHS booking system.

Stay safe and well.

All Staff at Riverside Meadows Academy
