10th January: Functional skills English exams year 11

28th February: Functional skills maths exams year 10

1st March: Functional skills English exams year 10

29th March: Spring enterprise event

Mock Exams

In the week of 28th November Key Stage 4 students were given the opportunity to sit practice exams for their GCSE subjects. The individual teachers will be using these grades to support students in their lessons and develop their understanding. They will also be used in the assessment process to check that students are making progress.

If students have missed these then there will be an opportunity for them to complete this in the new year.

Functional skills exams

Students in year 11 have been entered for some exams in January to allow them to achieve at a national level in maths and English. Some year 10 students have been entered for the same exams in February. Those students who have been entered will have been notified by their teachers.

Personal action planning

In ICT lessons students in Key Stage 4 have been creating their own personal action plan to think about what career they wish to go onto when they leave the school. This is an important part of the careers education plan as it allows students to think about what college courses they want to complete. This is an important step onto the college application process and helps students to think about their future.

Should you have any questions please do contact me at
