

Riverside Meadows Academy

Remote Learning

At Riverside Meadows Academy we have occasions where some students are unable to access the formal curriculum at school for a variety of reasons. Remote Learning has been put into place to ensure that students continue to have a formal learning package without been on site.

Remote Learning is taught by our in-house team.

Key Stage 4 students are taught functional skills English and Mathematics at either Level 1 or Level 2 during 9-12.

Key Stage 3 students are taught English and Mathematics Entry Level or Functional Skills Level 1 12 to 3.

Where possible other subjects are also taught online depending upon the students' needs and fully supported with hard copies of work packs.

In cases of a full or partial closure of the school the Remote Learning Policy is followed and all student learning will be held online using a relevant timetable, with parents informed of this prior to the closure.

All remote learning takes place through Microsoft TEAMS.

Please see our Remote Learning Policy for more information.
